POSITION IN SLEEPING.—It is better to go to sleep on the right side, for then stomach is very much in the position—o bottle turned anxide down, and the control of a realided in passing out by gravitation. If one goes to sleep on the left side, the operation of capitying the stomach of its contents is more like drawing water from a well. After going to sleep, let the body take is own position. If you sleep on your back, especially soon—after a hearty meal, the weight of the digestive organs, and that of the food, resting on the great veins of the body, near the back bone, compresses it, and arrests the flow of the blood more or less. rrests the flow of the blood more or less. arrests the flow of the blood more or less. If the arrest is partial, the sleep is disturbed, and there are impleasant dreams. If the meal has been recent or hearty, the arrest is more decided, and the various sensation, is more decided, and the various sensation, such as falling over the precipice, or the pursuit of a wild beast, or other impedding danger, and the desperate effort to get rid of it arouses us; that sends on the stagnating blood, and we wake in a flight, or trembling, or perspiration, or feeling of exhaustion, according to the degree of stagnation, and the length and strength of the effort unde to escape the danger. But when we are not able to escape the danger, when we do fall over the precipice, when when we do fall over the precipice, when the tumbling building crushes us, what then? That is DEATH! That is the death of those of whom it is said, when found lifeless in their bed in the morning, "They were as |well as they ever were the day before;" and often is it added, and atchearter than common? This last, as a frequent cause of death to this ast, as a request cause of taken to those who have gone to bod well to wake no more, we give morely as a private opinion. The possibility of its truth is enough to deter any rationa, man from a late and hearty meal. This we do know with certainty that the light with the property of the property o hearty mean. This we do know with cer-teinty, that waking up in the night with painful diarrhom, or cholera, of bihous colic, ending in death in very short time, is pro-perly traceable to a large meal. The truly wise will take the safer side. For persons who cat three times a day, it is amply suffi-cient to make the last meal of cold bread and butter and a cup of some warm druk. and butter and a cup of some warm drink. No one can starve on it, while a persever-ance in the habit soon begets a vigorous appetite for breakfast, so promising of a day of comfort.—Journal of health.

The Herald's last Humbug. We clip the following, from Frank Les-

lies Pietorial, FIFTY VILLAS FOR SALE!-We have met with nothing that shows the folly of what we Americans term fashionable life more glaringly than the advertisement of fifty villas for sale in the little village of Newport. Some few years ago, one or two Southers, families, possessing the means, and loving quiet for its own sake, erected comfortable cottages for their own accommodation in the schurbs of Newport. Immediately the vol-taries of fashion, and "nothing else," con-ceived the hotels to be too common, and the commenced a rivalry of cottage building.— Some of these edifices were comfortable some were mere shells, and all were as little needed by their ambitious constructors a tooth brushes are by clams. The fashiona! bles finally got into their cotteges, the seri breeze was delightful, the ocean waves invit-ed the invalid to their invigorating embrace the storm occasionally raged to fill the sou with poetic aspirations, but the cottage folk most unexpectedly found themselves mis crable; in spite of the charms of Neptune and the thunder clouds, they discovered that cottages were only intended for people wh have mental resources, and for the people who love home enjoyment—for people who are most sensible and most elegant without ostentation and all this is what our cotta gers held in contempt. They wanted, or the contrary, the dissipations and perty riv alries of recking hot hotels—they wanter to gratify envy and p ide by over-dressing at dinner, and half-dressing at tea-they wanted to be gazed at by the vulgar crowd, and commented upon by the "new comers," at d be abused by those who have staid long enough at Newport to be fagged out and disgusted; and all these "elegant luxuries" were not to be had in cottage villas. Nev er was disappointment more intense, of from a quarter more unexpected; to be taught in a really genteel and refined posi-tion made them wretched and uncomfortable to the last degreee. So the villas are to be abandoned, are to be left to the moles and the bats—are to become decaying but speaking monuments of the folly of tashion brambug and misapplied wealth.

"Frank Leslie" must be excessively green! The "New York Herald" a short time since published a statement that fifty o more villas were for sale in Newport, with a view of damaging the interests of this city for the coming season, and poor "Leslie' little suspecting the object of the wil scotchman, swallowed the bait, hook and all. The truth is, that Bennett was disap pointed in his attempt to extort his board out of the Newport hotels three or four years ag), and failing to black-mail us, has re sorted to all the silly expedients which his fruitful brain could invent to injure Newport. Obsisionally some very verdant brother o the aress had the molishness to echo ha nousense, as in the present instance.

Poor Leslie! to him Newport is a "little village." The magnificent country houses of William S. Wetmore, J. Prescott Hall, Mrs. Porter, De Lancey Kane, Daniel Par ish, Edward King, Samuel Powel, Sidney Besides and others, with their massive sand st use or granite walls, other grand lawns and magnificent grounds, are "mere shells" occurried by votaries of fashion, and nothing else." In ridiculous ignorance of the subjeche has permitted himself to be duped by the "Satanic Press" and proceeds in the coolest manner to assist in misrepresentating the truth, and in abusing the most select of American society, who seek seelesion, health, and quiet enjoyment here. In is a remarked, and well known fact, that the cottage residents of Newport are for the must part of literary and artistic tastes, that they do not wish to mingle with the ultira fushionables of the hotels; and any one who asserts to the contrary, either gives evdence of ignorance, or a desire to misrep-

At the present time, there are three or four time villas for sale, one belonging to the la e Christopher Wolfe, one of Newport mest carbusiastic admirers, and among the and widely beloved in her cottage circles. and talk ordy to close an estate, unother belonging to the Andrew Roberson Esq

which he has offered for sale for \$50,000, for the express purpose of building a still finer house on another part of his property, and a third on the ocean whose proprietor is travelling in Europe. The fourth and last ve know of is the fine house of an original New Yorker, who has another finely situated on the bay. There are more fine houses than this, either contracted for or already building, and several which were commenced last year, are now finishing, so that any statement that Newport is declining, in any respect is wilfully, or ignorantly false.

It is true, that as in every city of 12,00 inhabitants there are small houses worth from \$1000 to \$500, always building by calculators, and offered for sale; they are suited to the wants of the great numbers of merchants which have been drawn here by the unwouted activity of their various trades and half a dozen or more, of this class, mostly new, have been advertised for sale within the past month.

We took no notice of the "Herald's" article, simply because he believed that no one would credit it, but now that the "Illustrated News" has endorsed it, so fully, we have felt it our duty to contradict the ab-AQUIDNECK. surd fabrication.

NEWPORT, 3d Month, 10th, 1857.

To Mr. WEBSTER.

Respected Friend:—1 find that an im pression prevails with members of the Assembly, that your report in the Post of the proceedings before the Judiciary Committee of the House when the subject of my memor-rial was discussed, was written by me.— This, taken in connection with the unfounded assertions made by the Chairman of the Committee in the House the next morning, places me in a false and unpleasant post-tion before the public, which, under ordi-nary circumstances, I should not probably notice ; but now that I expect to go before that public with charges against some of the tribunals of the State, that I know will awaken the ill-will of nearly all the most powerful elements of opposition in the State, I feet anxious should be set right. Will you, therefore, as an act of justice to yourself and me, explain the matter so as that it will be generally understood, and obliged your

Thos. R. Hazard. In regard to the above, the editor of the Post assumes the authorship of the report complained of, clearing Mr. Hazard entirely of the imputations cast upon him. He further

"Our impression was very strong at the time, and is very strong now, that Mr. Haz-ard was not treated by the committee with the courtsey and respect which he had a right to claim, nor in the manner which was best calculated to silence his complaints.— He believed that, in one instance at least, the Supreme Court, in the exercise of equity powers, and acted without authority. He pointed to the case, and offered to prove all be had charged, if the Assembly would proceed to an investigation. The State was interested in this case—Mr. Hazard more than any other citizen was not. It was the State's duty, therefore, to assume the re-sponsibility and the expense of an investigation, and not to thrust aside, as though he were a scandal monger, a man who had de the State's highest interest, and who now needing at the Jessesson with the "lightning appeared only to warn the guardians of the line" of steamers for Kansas.

Gov. Geary and his Secretary, Dr. Guion.

Trampled upon.

Nor was there good policy, any more than justice, in thus treating Mr. Hazard.—
He is not a powerless man, and is not unkni wn to the people of the State. He believes he is right, undoubtedly, and he will not be silenced by half a dozen or half a score of decats. He will be heard by the records and is the procedure of the state of the sta people; and if his cause is good, it will assuredly triumph-for he was never known to abandon a purpose which he had ones fixed his heart upon."

FIRE.—Grace Church caught fire Saturday forenoon; it was extinguished without much damage to the body of the house. It caught fire in the vicinity of the furnace, in the cold air box, as near as could be ascertained, and burned the timbers supporting the floor. The prompt action of the police and firemen soon subdued the fire.— Much care was exercised in removing the doors of the pews, cushions, books, &c., so that aside from the fire underneath, there was but little damage. A fire had been in the forance in the morning, which was the cause of the accident at that time. Mr. Downs, the organist, discovered smoke from his place in the organ loft, and gave the alarm. There was an insurance on the house for \$30,000, divided among several Providence Offices. The damage will probably amount to about \$2,500 = 1Daily Transcript.

NOVEL MODE OF ADVERTISEMENT, Wood & Christry's Missrels drew the attention of the New York public last week by a novel made of advertisement. They offered to give ten thousand boys a kite apiece. So on Saturday last, an on-ormous crowd of boys fell into processince, breaded by omnifor as and breas bands; the procession was led of by a monster kin ten feet by twelve, on which was in-scribed "The Mother of Ten Thousand Kites." Then followed a six horse omnibus, baded with kites and boys, and ther a bage tail. Before the conclusion of the mar h the number of boys was estimated at. 15.600.

BAVIS' PAIN KILLER.

Brooklyn, Condo, June 15, 1854.

Filend Davis:—Although a stranger to you, I take the liberty of uddressing a few words in favor of your invaluable medicine. I have used your Pain Killer for a number of years, and for howel complaint and hurns, and in fact for pains of alk kinds. I think it pre-eminent,—Before I became acquainted with your nedicine, I had a violent attack of dysentery, which reduced me tery low, it fact my friends thought I could not survive, but by the treatment of a Botanic Physician, the best reneficial then knew, I recovered. Since then, I have four years ago. I was attacked at 3 three o'clock in the morning, and at saurise, I was not able to get off my bod, I sent and got a twenty-five cent bottle of your Pain Killer, which I commenced taking, according to directions, and at six o'clock in the evening my howels were regular, and I was up and moving about, although somewhat weak. I would recommend to all similarily afflicted, to avail themselves of your invaluable medicine.

I am sir, yours respectfully.

ELLIER WILLIAMS.

The genunine Perry Davis' Pain Killer is now put up in pannel bottles, with the words Davis' Vegetable Phin Killer blown in the glass; and with two steel engraved labels on Perry Davis, the original inventor of the medicine, the other a steel engraved 1 one of hand—none others can be relied upon as genuine. AMERICAN AND FOREIGN OFFICE

R. H. EDDY, Solicitor of PATENTS

(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)

Mo. 76 starts, opposite Rilby St.,
Boston.

A FTER an extensive practice of upwards
tents in the United States; also in Great
British, France and other foreign countries.—
Careats, Specifications, Assignments, and all
Papers or Bravings for Patents, executed in
the total terms, and with despatch. Resea, he
cande into American or Foreign works, to
determine the validity or utility of Patens or
Inventions,—and legal or other advice ren
dered in all matters touching the same. Copies of the claims of any Patent furnished by

This Agency is not only the largest in New
England, but through its inventors have ad
varinges for securing patents, or ascertaining
in the patentality of inventions, unsurpased by
if not immensarably superior to any which can
be offered them elsewhere. The instinonial
below give proof that none is MORE SUCSESFUL AT THE PATENT OFFICE
than the subscriber; and as SUCCESS IS
IN THE BENT PROOF OF ADVANTAGES
and ABILITY, he would add that he has
abundant reason to believe, and can prove,
that at no other office of the kind are the
charges for professional services so moderate.

The humans practice of the subscriber our
are ing eventy years past has enabled him to acconvicte a variety to patents. Theses
cales his extensive fibrary of legal and mecharges for professional services and Europe
render him athe, beyond question, to offer
superer facilities for obtaining patents.

All necessity of a journey to Washington,
to preserve a patent, and the usual great delay
there, are here saved inventors.

TESTIMONIALS.

there, are here saved inventors.

TESTIMONIALS.

During the time I accupied the office of Commissioner of Parents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Parents. There were few, if any persons acting in that capacity, who had so tauch business before the Parent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuming inventors that they cannot cauploy a person more competent and trustworthy, and more capable of patting their applications in a form in sequence for them an early and hyporalle consideration at the the Patent Office.

REGRAPTING OLD TREES. The late George Olmsted, of East Hartford, was very successful in grafting new tops into old trees. His rule was always to begin at the top, and graft one third of the tree in each year—three years being thus required to complete the entire head. By grafting at the top fiest, the grafts are not shalled by the remaining branches; while the necessary reduction throws the sap into the remaining side limbs, and gives them vigor for grafting the next year. A tree second-five years old was successfully treated in this way. The fourth year after ards it bare ten bushels of apples; the field year bore ten bushels of apples; the fifth year eight bushels; and the sixth year twentycight and a half bushels .- Country Gentle

BROWNELL'S VENTILATOR. PATENTED, SECT. 16, 1850

Berewith you are presented with

Herewith you are presented with a list of sizes wan the price of each annexed, of BROWNELL'S PATENT VENTILATOR for all purposes where ventilation and a strong draft are required; and are particularly designed for HALL ROAD CARS, PERLIE BULLDINGS, SMOKEY CHIMNIES, and CAROOSE and CAMEN PIPES.

The advantage preposed by this ventilator over all others is, it gives a uniform draft to a chimmey, and at the same time excludes water thus doing away with two great evils—a back draft and drippings down the chimney. The ortangement of the ventilator is very simple; it can be easily adjusted to any use for which it may be required, and it is not liable to get out of order.

THE GREATEST WONDER OF THE AGE. REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S I French Cholera Cognie Bitters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally dechamyledged remedy against cholera, dysentery, diarrhaea, and complaints of the stomach in general. The numerous patients who have treel it according to directions have invariably found refief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Affles in the Crimen, the mortality of the suddiers from cholera and smallar diseases was diminished by over 75 per cents; in consideration of which, the inventur was presented by the French and English governments with a gold unclad, heating the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most erelebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to my that may wish to see them.

Louisting Conductors on the plan of J.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen. It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable. Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt,
of Cincinnati, Ohio, and regard them as constructed in confirmity to the general laws of
the electric fluid; and the Gilded Copper,
Brunched Points, as promising, from the results of several tests to which they were subnited, to resist for years the action of those
atmospheric causes must likely to corrode them.

From the editor of the Real Estate Advertiser No. 2 School Street.

Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be ast dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Prof. O. J. Wood.—Dear Sir—I take pleasure in hearing voluntary testimmy to the magic effects of your wonderful Hair Restor ative. As far back as 1856 my hair commenced talling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwith standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became finaly set and assured by very glassy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.

Yours, truly.
